

**REMARKS**

Restriction to one of the following inventions is required under 35 U.S.C.121:

5 I. Claims 1-12, drawn to a fluid ejection head, classified in class 347, subclass 63.

II. Claims 13-25, drawn to a method of manufacturing a fluid ejection device, classified in class 216, subclass 27.

10 The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed  
15 can be used to make other and materially different product or (2) that the process as claimed can be made by another and materially different process MPEP § 806.05(f). In the instant case, the apparatus could be manufactured by a materially different process, such as laser ablation.

20 Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

25 Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

30 Applicant is advised that the reply to this requirement to be complete must include an election of the invention to

be examined even though the requirement is traversed (37 CFR 1.143).

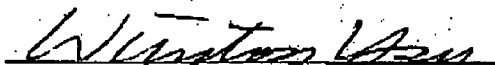

Applicant is reminded that upon the cancellation of the  
5 claims to a non-elected invention, the inventorship must be  
amended in compliance with 37 CFR 1.48(b) if one or more of  
the currently named inventors is no longer an inventor of at  
least one claim remaining in the application. Any amendment  
of inventorship must be accompanied by a petition under 37  
10 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

**Response:**

The Applicant has consequently amended the claims in the  
above AMENDMENTS TO THE CLAIMS section to elect the claims  
15 in Group I. Claims 1-12, drawn to a fluid ejection head, are  
elected as the subject matter to be examined in the present  
application. Claims 13-25 are non-elected and therefore  
withdrawn. Reconsideration of claims 1-12 is therefore  
requested.

20

Respectfully submitted,

Date: 2/12/2004
